

# The 2026 G1MRA website - <https://g1mra1947.github.io/>

## A support guide

2 Feb 2026

The 2026 G1MRA website comprises a set of static web pages hosted by GitHub which link to a set of Google forms.

Each user-visible web **page** is backed by one **page.html** file generated by the AMP macro processor from specifications rooted in **g1mra.amp**. The script **make.bat** rebuilds all pages; the script **publish.bat** pushes the changes to GitHub. Note that there can be a delay of a few minutes before the served pages reflect a push to the repository.

## GitHub account

There is a GitHub 'organisation' called G1MRA1947 rooted at <https://github.com/g1mra1947>

Only folk with GitHub accounts may be members of an organization.

Initial membership is

1. (Original owner) Adrian Johnstone as AJohnstone2007 with verified email [a.johnstone@hul.ac.uk](mailto:a.johnstone@hul.ac.uk)
2. (Owner) Donald Pickett as rw-donaldp with verified email [donaldp@readyweb.co.uk](mailto:donaldp@readyweb.co.uk)

The G1MRA1947 organisation owns a single repository <https://github.com/g1mra1947/g1mra1947.github.io>

The contents are automatically served as web pages under <https://g1mra1947.github.io/>

Note the empty **.nojekyll** file at the top level of the repository – this ensures that pages are served as-is without processing by GitHub's Jekyll static page generator.

## Gmail account and Google forms
